## THANK YOU TO ALL SUPPORTERS AND COLABORATORS WHO ARE HELPING US EVERY DAY TO MAKE THIS VENTURE A BIG SUCCESS!

ArtSpaceHotel had hundreds of informative meetings with artists from virtually all artistic fields in many countries as well as with plenty of art-related companies, agents, owners of studios, music shops and art-galleries, with dance teachers, choreographers and so on, causing very positive reactions from all sides. Most of all these fine people made a tremendous effort to support us and/or to help defining what artists expect from a resort for artists, in terms of facilities, equipment and services. Most of them declare that they would like to become our clients as soon as possible. Many signed our SUPPORT BOOK some of which we proudly present below:

**The company ArtSpace, Turismo Rural, Lda. is established in its legal form since summer 2003.** The two promoters, being siblings, are Heike and Kai Vieweg - both professional artists / musicians. **ArtSpaceHotel** - Resort for Artists & Art Lovers, will be built on a hill-based (owned) property, **located in Southern Portugal - Alentejo Litoral - Municipality of Odemira - Parish of Santa Maria.**

**In the creative & preparatory stage of artistic endeavour** everything depends especially on inspiration, comfort and on the absence of distractions. Given that the creating-environment provides these conditions, the artist's **creative potential will be maximized.** The idea of building **ArtSpaceHotel** arose from the personal needs felt by its promoters for a tourist resort in which artists could feel stimulated in their creativity, raising the efficiency of their artistic endeavours due to the inspiration of a beautiful and calm environment around a place furnished with all amenities, offering all the specific equipment as well as special services to support their art-work. Since such a resort was virtually not to be found in the market, the promoters organized - over a period of many years - rehearsals in temporarily rented country houses, providing accommodation but no specific equipment, which therefore had to be brought and installed there temporarily, each time requiring a lot of work. As these rehearsals proved to be highly successful in terms of artistic results, the managing director **Kai Vieweg** was motivated to create the plan for **ArtSpaceHotel.** On the strength of the experience gained, the resort and its services will be highly adjusted to the clients' needs, guaranteeing that **artists and art lovers can work under ideal conditions, consequently with maximum creativity and effectiveness.**

**ArtSpaceHotel's offer will be aimed essentially** at guests being in the **creative working-phase** which generally does require less equipment than the finalization-process of artistic productions. Therefore **ArtSpaceHotel** will be in the position to provide equipment for virtually all genres. The equipment & basic technical assistance for its use will be available at all times, supporting professional or non-professional creative activity - also enabling guests to make (unedited) sound or video recordings of their art-works for monitoring purposes / result-control. **ArtSpaceHotel's** effort to make its customers happy will focus on the supply of **EQUIPMENT FOR ART\* / artists / artwork which will include dance-floor-element-s, rehearsal stage-light-s & follow spot-s, raiser-s, rehearsal / practice / preparation stage-element-s for drama / theatre / acting / for actor-s & musician-s as well as for dancer-s. Ballet barre-s, mirror-s for dancer-s, easel-s, pallet-s, paint brush-es, electric-al / acoustic-al / classic-al / music-al instrument-s, microphone-s, a grand piano, bass guitar-s, guitar-s, keyboard-s, drum-s, percussion instrument-s, a PA system, pre-amp-s, amp-s, amplifier-s, effect-s, mixing & recording console-s / table-s, photo camera-s & digital film-ing / film-maker & photography device-s.**  
\*A DETAILED LIST of available equipment will be published on [www.ArtSpaceHotel.com](http://www.ArtSpaceHotel.com)

The offer will also embrace common equipment for tourists like mountain bikes or table-tennis but especially **art-related features** such as a **library of art-books** and a highly inspiring **DVD-video-library**, containing films about major art-works, **"the-making-of"-documentaries**, as well as other movies and documentary-films about important themes like **freedom, justice & human rights**, all forming the basis for creativity and artistic endeavour in general. The house will be decorated in a very special way and inspire its guests with ever-changing surprises. In order to accomplish the realization of all its objectives, **ArtSpaceHotel** will offer highest comfort in all spaces as well as an enchanting garden including a **heated swimming pool**, a **whirlpool** and a **mountain-view-sauna.**

By temporarily mediating or renting supplementary equipment & services through its associated partners, **ArtSpaceHotel will also be able to satisfy the most demanding artists' needs** concerning **advanced or complete final productions** as well as to fulfill other **specific wishes.** The additional offer will comprise sound and film **technicians for edited recordings, teachers** and other **specialists** in various fields of artistic production who can **assist, advise & monitor the works, photographers & portrait-painters** who can capture the guests while working, high-class **catering services**, professional **masseurs** as well as **car or helicopter shuttle service to airports** and much more.. **"Master-class-es" & workshop-s** with professional artists from around the world will be mediated and organized regularly – offered together with accommodation & catering at **ArtSpaceHotel.** Due to the co-operation with event-venues and art-production companies, **ArtSpaceHotel** will be able to organize **concerts, exhibitions or performances.**

By this means the facilities can serve as perfect **“MULTI - USE - ArtSpace”** such as **painting atelier, dance studio-s, rehearsal room-s, practice room-s, preparation room-s, teaching-room-s, training-room-s, formation-room-s, conference-room-s, class-room-s, composing space-s, art-working-space-s, artwork-space-s, workshop space-s, workshop studio-s, rehearsal studio-s, pre-production studio, production studio, recording studio.. and of course at the same time as hotel accommodation, hotel room-s, holiday home, vacation home or recreation resort.**

**ArtSpaceHotel**’s innovative combination of inspiration through “peace & quiet” plus comfort with the diversified offer of specific equipment and additional services placed at the guests’ disposal - while creating - will make the place truly a unique **HOTEL FOR ARTISTS & ART LOVERS.**

**For many years** the word about the creation of **ArtSpaceHotel** has spread across the globe, particularly in the artistic milieu. As a result of the various channels of publicizing the plan, **ArtSpaceHotel** has already become popular and has been **mentioned in newspapers and magazine articles** on the activities of its promoters, Heike & Kai Vieweg. The presentation & research-site on the Internet, aimed at publicising and explaining the plan, as well as hundreds of personal meetings & interviews which Kai Vieweg has had with art-related individuals from all over the world, caused extremely positive reactions and helped to define in detail what artists expect from **ArtSpaceHotel** in terms of facilities, equipment and services.

### **ArtSpaceHotel’s WEBSITES are:**

**ArtSpaceHotel**’s prices will include accommodation, breakfast, the use of sauna, heated swimming pool, whirlpool, equipment for artists as well as basic services related to all artistic genres. Considering that equipped rehearsal-studios or other art-working spaces are usually charged per hour and do not include accommodation or other leisure-features, **ArtSpaceHotel**’s facilities and services - in “per-day-comparison” - are going to cost even less than those similar offers which are generally specialized in one artistic field only and are normally to be found in urban environments – therefore by far not able to provide the same level of inspiration & comfort as **ArtSpaceHotel** will.. being located in the sunny and mild countryside of southern Portugal.

**"Moinho da Garraza"** – the property that **ArtSpaceHotel** will be built on – is an **easily accessible**, yet **well-hidden** location offering breathtaking views over the superb landscape of the region. Just 10km/6m from a very beautiful national park (Parque Natural SACV) with its magnificent cliffs and beaches (Costa Alentejana & Vicentina). Only 25km/16m from the world-famous **Algarve** with its never-ending leisure-options. **ArtSpaceHotel** will be next to Odemira, a very well developed small town & regional capital with all the conveniences of urban centres, such as exhibition rooms, auditoriums, a modern library, supermarkets as well as means of express-transport to major towns. **Faro airport** is only few more than 1h away, the perfect distance because it enables **ArtSpaceHotel** to offer **amazing tranquillity** to its visitors. Since most guests will be flying in, it is very important that Faro airport, to which most bargain-priced charter flights go, is relatively close. **Lisbon** - one of the world’s most enchanting capitals - is just over 2hs away from the resort and will not only be the source of many additional special-services but also a fountain-head of extra-inspiration for its clients who will be offered short trips to the wonderful city. **ArtSpaceHotel**’s geographical location simply guarantees natural inspiration in a pleasant climate through the whole year.

**ArtSpaceHotel**’s **architecture** will outstandingly satisfy all clients’ requirements. The blueprints envisage salvaging and rebuilding an **old farm** which includes an **historic windmill**, built over 100 years ago, located in a plot of land measuring some 2000 m<sup>2</sup> / 21600 ft<sup>2</sup>, surrounded by ancient cork, pine, olive and some eucalyptus plantations. The reconstruction plan, approved by the Portuguese national & district tourist boards as well as by the Odemira town hall, intends to accent

the style of the charming traditional architecture of the two most southern Portuguese districts - Baixo Alentejo & Algarve - and aims to result in a "visual citation" of a typical regional village, combining superior technical standard with most elevated comfort inside as well as outside of the building. The whole property will be re-created in an innovative way. **ArtSpaceHotel**, with a total area of over **550m<sup>2</sup> / 5940 ft<sup>2</sup>**, will comprise a **large cooking/catering-facility**, 10 bathrooms and **11 "Convertible-Multi-Purpose-Rooms"**, one of which will serve the hotel personnel. **Special technical features** will allow that all of these "CMP-Rooms" will be able to serve as **sleeping, working, or living-rooms**, being **convertible** within few hours. The first floor of the windmill is going to provide access to a **panoramic roof garden**. The biggest "CMP-Room" will cover about **135 m<sup>2</sup> / 1458 ft<sup>2</sup>** containing the separable cooking/catering-section. Another "CMP-Room" will have **40 m<sup>2</sup> / 432 ft<sup>2</sup>** and can be joined with the central patio – resulting in a semi-open-air space of **55 m<sup>2</sup> / 594 ft<sup>2</sup>**. Some of the "CMP-Rooms" are each going to be divisible into smaller spaces, in case additional compartments are required for any purpose. Thereby the building will be **ideal for groups of 2 to 14 artists** and is going to be suitable to be used by even larger groups. Double-glassed doors and windows, optional **air-conditioning** as well as a **central heating** connected to a solar energy component will guarantee the highest standard of cosiness throughout the year. Future guests will especially enjoy their stay on several large terraces around the house, embedded in the **inspiring outdoor-arrangements** embraced by a scenery of surpassing beauty.

**The property as a whole will be transformable** into whatever the specific needs of the creative clients require. At the same time the **facilities do represent a regular hotel-unit**, comprising 6 double rooms – with private bathrooms, 3 large living rooms as well as a separate division for personnel. **ArtSpaceHotel's** innovative architecture will also allow that artistic group-work can take place in one section of the house while the other sections simultaneously serve guests who are on a "classic" vacation. According to the nature of the artist-groups' intended activities, those may choose or be obliged to rent the entire house or at least one of its separable sections. Interference between the various types of clientèle will not occur since all possible kinds of artistic work will be pre-classified either as subject to "lock out" / "semi lock out" / or "no lock out" - OBLIGATION. During the reservation process, **ArtSpaceHotel's highly developed on-line reservation & booking system** will ask potential clients about their exact intentions concerning artistic activities and respond with the relating indication of options and / or activity-related "booking-obligations". Priority will be given to reservations involving artistic activity. All agents linked to **ArtSpaceHotel** as well as personnel at its reception desk will equally use the on-line system for any bookings.

**Market research** based on countless meetings & interviews with artists and art-related entities has proved that artists & art lovers will be in need of **ArtSpaceHotel** at any time of the year, since their artistic endeavours are not restricted to good weather or any holiday season. Probably the focus of demand will even be on the European winter season, when artists & art lovers from "colder" countries prefer to work in places that enjoy the climate features that **ArtSpaceHotel** will be offering due to its outstanding location in Southern Europe. **ArtSpaceHotel** will also be in great demand among artists from all parts of the world, intending to prepare their European tours / performances at the resort, since **ArtSpaceHotel** is also going to be advertised through agencies that organize those tours. The majority of the artist-groups will be staying for substantial periods of time like 16 days or longer, enabling them to perfectly develop and complete their works. Artists, being **ArtSpaceHotel's** key target clientèle, will guarantee very high occupancy rates.

Besides the support that professional consultants and bookkeepers have been lending to the creation of **ArtSpaceHotel**, its economic development will benefit to a significant extent from the managing director **Kai Vieweg's** extensive knowledge of the markets in which the company is to operate, resulting in direct access to potential clients. Kai Vieweg has also worked in a Brazilian "Pousada" which provides accommodation combined with art-related workshops. Furthermore he has provided tourist-support services for artists visiting the areas of Alentejo, Algarve and Lisbon. The upshot of all these activities is a regular contact with various tourist-businesses in Portugal and other countries. Professional customer-relations training was also included in his part time employment as a taxi driver in Frankfurt, Germany in the early 1990s.

Partner and sister **Heike Vieweg**, has been a well known artist in Germany. For many years, she was the musical director and singer at "Angie's Hamburg", one of the most successful live-music clubs in Central Europe, where she also publicized ArtSpaceHotel in many different ways. There have been regular reports in the press on her innumerable activities inside as well as outside the club of which to be highlighted 1995's hit single "Soulful Man" <http://www.youtube.com/watch?v=Vx2NmVMhDok> besides many other successful international productions & releases. Learn more on: [www.floy.de](http://www.floy.de)

**There are innumerable supporters, firmly believing in the concept of ArtSpaceHotel**, who are willing to help & collaborate in many ways. Some individuals and companies are going to back **ArtSpaceHotel** by donating some pieces of equipment or by offering huge discounts.

**The Alentejo State / District Ministry of Trade, Commerce & Innovation as well as the Odemira Town Hall do highly support ArtSpaceHotel.**

The **Vice-Mayor & Councillor for Tourism, Culture and Education, Mr. Carlos Oliveira**, visited the property, studied the architectural blueprints and displays a tremendous deal of enthusiasm for the plan, because of the positive impact that **ArtSpaceHotel** will have on publicizing and promoting the region internationally as well as stimulating the artistic and cultural life of the municipality. **Both entities certified ArtSpaceHotel to be innovative and therefore economically important for the touristic & cultural development of the district / region. ( See certificates in slide show on [www.ArtSpaceHotel.com](http://www.ArtSpaceHotel.com) )**

**ArtSpaceHotel** is therefore getting a **subsidy** which is given by "Turismo de Portugal, IP's" european-portuguese **Tourism-Fund-Program "SIVETUR" / "PRIME"**, Learn more on: [http://www.prime.min-economia.pt/PresentationLayer/prime\\_apoios\\_00.aspx?activeitem=2&activesubitem=1&idioma=2&accaoid=39](http://www.prime.min-economia.pt/PresentationLayer/prime_apoios_00.aspx?activeitem=2&activesubitem=1&idioma=2&accaoid=39)

Making allowance for possible delays, ArtSpaceHotel will be ready to receive guests in 2011.

While **ArtSpaceHotel** is being built, the promotional phase is being developed - including the "signing" of **agreements with artistic production agencies, travel agencies and other bodies**, agreements some of which are presently at the advanced negotiation stage of defining the exact terms of the partnerships to operate. That period will also see the launch of an **international advertising campaign** in selected **art-related magazines**, as well as by post & targeted e-mailing to potential clients. **ArtSpaceHotel's** future **web site** - modern and **of an excellent standard** - is then going to make a fundamental contribution to selling its services and **will guarantee optimized on-line-promotion**.

The innovative conception of **ArtSpaceHotel**, the resort's beautiful location in a natural sanctuary and the "perfect" distance (90km/56miles) to Faro-airport on Portugal's sunny south coast, all will add up to an extremely significant competitive edge over all the comparable existing tourist units in Portugal or elsewhere. **ArtSpaceHotel** will be helping to improve and diversify the touristic offer which has to satisfy a rapidly growing demand for quality and new ideas. **At the heart of a mouthwatering landscape, the resort will promote the region's natural endowments**, pulling in guests who enjoy vacation based on nature & relaxing leisure as well as a whole new type of clientèle. **ArtSpaceHotel will play a significant part in the region's development without harming the environment.**

The ArtSpaceHotel - business concept has a huge potential for development and expansion, for which southern Portugal possesses ideal conditions. Therefore ArtSpaceHotel prepares the acquisition of other properties in the host-region and their subsequent adaptation to this business model. ArtSpaceHotel can be the "prototype" for many more resorts to be opened up in the region and also elsewhere in the world during the next decades. In order to cope with the possibilities laying in this concept as well as in the many extremely inspiring properties - available in southern Portugal, the founders of ArtSpace, Lda. created the "Property for Art - Group" / P4A, which performs "Investment in Properties Aimed At Artistic Activities". This venture is based on a partnership which involves ArtSpace, Lda. and 2 other companies. Each of the 3, is a specialist in one of the key fields that are united in the ArtSpaceHotel – concept.

The economic studies - revealing ArtSpaceHotel's future revenues, duly broken down into the various types of services to be rendered, do indeed demonstrate that ArtSpaceHotel / ArtSpace, Lda. will be financially very sound. The forecast is for every economic and financial indicator to be positive.
